

## MTM6231 Content Management Systems I

### Exercise 1: WordPress Posts and Pages

Week 05

Work on your domain and submit the URL.

#### Requirements

- Create four (4) posts
- Use the Block Editor to format the posts
- Create three (3) categories
- Publish posts
- Create two (2) pages (*one parent page - one child page*)
  - Make sure your posts can be displayed - either set the "home" to be your post page, or make one of your other pages the "post" page
- Create an account for your professor with the following information:
  - **Username:** professor
  - **Password:** teach010
  - **Role:** Administrator
  - Email:

All Posts must have the following:

- Paragraph
- Blockquote
- Unordered and ordered lists
- Assigned to *at least* one (1) category (*should not be Uncategorized*)
- Assigned three (3) tags *minimum*
- Featured Image
- *Anything else you may want to add!*
- **NOTE: CONTENT SHOULD NOT BE DUPLICATED, don't just duplicate the post and change the name**
- **NO LOREM IPSUM**  
*Please treat is as your portfolio profile/piece*

#### Submission

- Work on your online WordPress installation in your hosting
- **Submit your website URL (the domain you bought)(yourdomain.com/admin)**
  - I will use the submission of the URL and administrator account you create for me to verify your submission timestamp
